

## **Access 21<sup>st</sup> Century**

---

Following are recommended platform requirements for *Access 21<sup>st</sup> Century* LAN and Standalone versions.

### **Servers**

As with any client/server application, *Access 21<sup>st</sup> Century* runs more efficiently on systems that have substantially more RAM and processor speed.

#### **Microsoft**

Windows 2003  
Windows 2000  
1.0 GB Available RAM  
Pentium 4, 1.5 Ghz  
250 MB free disk space  
Network Speed 100 Mbps  
TCP/IP connection

#### **Novell**

NetWare v.6.5 with JVM 1.42  
NetWare v.6.0 with JVM 1.31 or 1.42  
2.5 GB Available RAM\*  
Pentium 4, 1.5 Ghz  
250 MB free disk space  
Network Speed 100 Mbps  
TCP/IP connection

#### **Notes:**

\* Netware v.6.5 with SP8 and JVM 1.43 or above is not supported.

\*\* NetWare handles Java™ technology runtime libraries differently than Windows-based operating systems, so it requires additional RAM be available.

### **Clients**

#### **Microsoft® Windows® Client Workstations and Standalone Systems**

- Windows Vista, XP, 2000
- 256 MB RAM or more
- Pentium 3, 500 Mhz
- Network client disk space: 140 MB free disk space for student application only; 40 MB for management system only; or 150 MB for both applications
- Standalone disk space: 200 MB
- SVGA Monitor 800x600 (16-Bit High Color or greater)
- CD-ROM Drive for installation
- TCP/IP connection for LAN
- DeskJet/LaserJet quality printer (optional)
